**Flower**

Meet Flower. She was a family pet until her owners decided that her medical needs were too much, and dropped her off at their the local shelter. At some point in her short life, she was abused and sustained fractures in her leg & collar bone. She also has buckshot embedded in her abdomen. Flower is such a sweet, loving girl and even though she must be in pain, all she wants is a chance to live.

Rescued by Purr Partners, she requires surgery and leg amputation before she will be free of the pain and able to run and play again. Tripod cats are quite ingenious, nimble and with care, she will finally have the life she deserves. Flower needs help, please consider donating and sharing Flower's story.

Purr Partners works to save the lives of cats and kittens from high-kill shelters in North Carolina. It is a 501(c)(3) non-profit foster-based rescue and is run 100% by volunteers, EVERY dollar that is donated goes directly to help the animals they serve.
